Top story

China hosts International Conference on the contribution of the UNESCO Associated Schools Network to SDG 4 and Education 2030

An international Conference of the UNESCO Associated Schools Network: Contributing effectively to the implementation of SDG 4 and Education 2030 takes place in Sanya, People’s Republic of China, from 6 to 10 April. It gathers some 70 actors from the global ASPnet community, policy makers and partner institutions to explore concrete actions for ASPnet to support the implementation of Education 2030 and the achievement of targets 4.7 and 4.a.

Organized by the Ministry of Education in China, in cooperation with UNESCO, the conference will support current efforts to reform and revitalize the network in order to better guide and support the work of its over 10,000 member institutions and to increase their prospects for cooperation and exchange. Research

- The tool features a search function, simple as well as advanced to refine results

- The research is available in English, French and Spanish on the 3 websites: public, private and collaborative

- The research allows to refine and filter the results by:
  - Themes
  - Countries
  - Keywords
  - Educational level
What is the added value?

✓ The management of membership applications

✓ The membership process is managed electronically

✓ The registration steps via automatic notifications by emails and messages

✓ The actions undertaken by the School, the National Coordinator and the International Coordination
International Conference of the UNESCO Associated Schools Network

The added value

OTA – workflow for new admission

Becoming an ASPnet member - Workflow steps

School submits an Expression of Interest

National Coordinator reviews the Expression of Interest

School receives confirmation message

National Coordinator considers positively the Expression of Interest

School submits an Application Form

National Coordinator receives the Application Form

In favor

School receives a message to complete the Application Form

Message 8

FORM 1

DECLINE

National Coordinator does not consider the Expression of Interest

National Coordinator does not recommend the school to the international Coordinator

International Coordinator receives the recommendation

International Coordinator does not accept the school

DECLINE

International Coordinator recommends the school to the Network

International Coordinator accepts the recommendation & admits the school to the Network

National Coordinator recommends the school to the international Coordinator

National Coordinator sends the Certificate to the school

The School receives confirmation of acceptance

The School becomes a member of ASPnet

Criteria for review, recommendation and acceptance

The National Coordinator reviews the Expression of Interest based on the following:

- The status / Credentials of the school

The National Coordinators review and recommend the Application Form based on the following:

- Feasibility of the project (adequate resources to actively undertake projects)
- Sustainable commitment to undertake projects
- Demonstrated willingness to build partnerships and initiate joint activities
- Presence of innovative approaches, the use of participatory methods of teaching and learning
- Advocacy effort for UNESCO's values

The International Coordinator accepts or declines the recommendation of a new school based on the following:

- The school project is in line with UNESCO's mandate and values
- UNESCO's priorities are embedded in the school project

Legends:

- School
- National Coordination
- International Coordination
Our Role

The International Coordination of ASPnet

- Ensure technical developments and suitable functioning of the tool
- Develop practical guides and tutorials
- Provide assistance and support to members
The National Coordination of ASPnet

• Ensure that your schools data and your own are up-to-date

• Mobilize your schools to become familiar with the tool and to become a real player for its success

• Continue to make suggestions / comments to improve the tool
Thank you
