UNESCO Associated Schools Project Network

Innovative and collaborative teaching and learning in the context of Education 2030

Online tool for ASPnet
UNESCO Associated Schools Project Network

About the tool

• Streamlining and improving the management of the network

• Stepping up networking and collaboration

• Increasing the visibility of ASPnet and its members
Structure of the tool

Public website → Private website → Collaborative website

1. Accessible to ASP.net members and the public
2. Reserved to authenticated members (profile management)
3. Reserved to authenticated members to share information
UNESCO Associated Schools Project Network

1 Public website

Accessible to all Internet users in English, French and Spanish

- Publication of world directories including:
  - National coordinators and member institutions of ASPnet
  - News, information and educational resources from, for and about ASPnet members
  - Online requests for membership

- Highlighting and promoting news and other information from members
Private website

- Accessible following authentication with individual user name and password

- Authenticated members can publish their biography, state their subjects of interest and invite and follow members

- Provides access to members’ private information (national coordinators and institutions)
Shared space: exclusive access to authenticated members

Allows all members to:

- consult specific resources
- update their own information
- download content: projects, publications, videos, photographs
- share events
- find partners for twinning
### Online tool in facts and figures - use

<table>
